

MSTM ELEMENTARY LIBRARY

The MSTM Elementary Library is open from 7:30 - 3:30 every school day. Similar to the JH/HS library, there are usually students in every morning finding books, looking up information, or just reading with friends.

During the day, the elementary library is busy with information literacy classes. Pre-K - 6th grade have library once every 6 days for 45 minutes. When there are no classes in session, the library is open for teachers to send students down to get books/information for their projects.

We have the new 2009-2010 Iowa Children's Choice Award Books which have been highly popular among the students. Also, this year and last, the MSTM PTO was kind enough to purchase new almanacs, thesauruses, dictionaries, and a set of encyclopedias

for the elementary.

The MSTM library staff is often utilized by the elementary teachers as planning resources. The library staff and classroom teachers are always finding great ways to collaborate in order to make the most out of the students' learning experiences.

The staff in both libraries are also continuously working on improving services and resources that are available so it's an exciting and interesting time. No matter what's going on though, it's important to know students and their families are always welcome!

Thanks!

Ms. Skellenger & Mrs. Gibson
